

Honour Roll 2019: Hedge Funds in Asia-Pacific

As the year draws to a close, we rank the best performing hedge funds in different categories across the Asia-Pacific region

Methodology

Preqin Pro tracks over 850 hedge fund managers and 2,900 hedge funds, and contains performance data for over 1,600 hedge funds based in Asia-Pacific.

To determine the best performing funds, Preqin only included hedge funds and funds of hedge funds (commingled and listed) with complete, unbroken net monthly returns and assets under management as

of September 2019. Where a fund has multiple share classes, we selected the best performing share class with unbroken returns.

Although fund rankings are not expected to alter significantly, final performance tables are subject to change as more data becomes available.
